

S O U P C A N

TROUGH

TROUGH: A BASIC RECTANGULAR BOWL CONFIGURATION WITH SINGLE OR MULTIPLE DRAIN OPENINGS. TROUGH CAN BE CONFIGURED TO ACCOMMODATE WALL OR DECK MOUNTED FAUCET CONFIGURATIONS.

DRAINS CAN BE CONVENTIONAL OR BLIND; A BLIND DRAIN IS SIMPLY A SLOT THAT THE WATER DISAPPEARS THROUGH; THE WATER COLLECTS IN A DETACHABLE PAN THAT IS UNDER THE SINK; THIS PAN ACCEPTS STANDARD DRAIN FITTINGS, THEREFORE, INSTALLATION IS VERY STRAIGHTFORWARD
